## modus ry engages nanna during finnish craft & design fair in tampere

with Nanna

The Finnish Craft and Design Fair "Kädentaidot messu" annually takes place in November in Tampere, Finland. It has grown to become Europe's largest crafts event and it attracted almost 42.000 visitors to acquaint themselves with the activities and programs of over 700 exhibitors in 2023. This year's motto is Be boldly yourself!

The 3-day crafts and design event cherishes Finnish hand skills and artisan know-how. Professionals and hobbyists mix and mingle bringing much needed light and joy in the middle of the November grey.

Nanna first came in contact with Modus ry at this Tampere fair two years ago. This year she was accepted as member of Modus ry Pirkanmaa design, arts and crafts association (Pirkanmaan muotoilu- ja taideteollisuusyhdistys Modus ry), an active Erasmus+ accredited organization.

At the Modus stand in the big hall with the main stage, Nanna is invited to run "Communal Stitching Workshops" on both Friday and Saturday. Everyone is warmly welcome to take part in the fun joint textile project. No prior knowledge is needed. The stitching has a calming effect on most people. You can sit quietly to yourself and work on patterns or motives that you are interested in. You stitch on a common cloth that is draped on the table. Or maybe you challenge your friends that came with to the fair? You all spread out around the cloth, find chairs to sit on, and spend 20 minutes leaving "yarn-markings". At the end you cherish each other's hand made mark-makings by yarn... let your creativity be your guide. The sky is the limit. No specific stitches need to be used.

All material, e.g. colorful threads, yarns, beads and ribbons are available for the project. Also pattern-ideas, but Nanna prefers everyone's imaginary motives to work the best. The Modus members are looking forward to all of you: young or old / man or woman / professional or newcomer. Let us learn from and with each other. Everyone stitches in their own pace. It is all about the process and not about results...
